Naturals

Designing as nature intended

Our Naturals designs are scanned from nature through the meticulous sourcing of high quality raw materials such as wood and stone. Using a unique patentprotected digital printing technology, the only single-pass 2m wide printer for jetting water-based inks on vinyl in the world, we have reflected the best of nature's diverse features, from characterful wood grains to the subtle textures and nuances of stone. To convey the true diversity of the natural world in all its glory, our modular vinyl flooring displays a high definition with non-repeating motifs and an ultra matt finish.

Authentic

Synchronising look & feel

Our Authentics designs are created with “Embossing in register” technology for a more natural look. This technology engraves effects onto planks and tiles to reproduce unique flooring that gives a truly realistic impression of real wood.
