CHAPTER IV

IL IV CAPITOLO

Il IV capitolo della collezione Kreative di Klamoo nasce ispirandosi all'arte italiana declinata in tutte le sue forme.
Il racconto del nostro paese dal punto di vista architettonico, artistico, naturalistico, culturale e culinario.
Un percorso sensoriale, una lusinga per ognuno dei cinque sensi.

Opere immortali riportano alla memoria i fasti del Rinascimento e la meraviglia di gloriose città riconosciute in tutto il mondo per la loro inestimabile ricchezza artistica, accarezzano lo sguardo e si lasciano catturare per diventare complementi d'arredo ineffabili.

Ridenti paesaggi mutano in suggestivi dipinti che hanno la virtù di immergere chi li ammira in un'atmosfera di quiete, sembra si possano udire i rumori della natura. Il fruscio delle foglie, il cinguettio degli uccelli che agili si muovono da un ramo all'altro, lo scorrere di un ruscello, cullano e coccolano con armonia gentilezza.

Illustrazioni ispirate al secondo futurismo, caratterizzate da un forte legame con la cultura post-cubista, linee nette e colori vivaci ci parlano dell'arte culinaria, un mix di gusti e sapori che raccontano tutta la vivacità della storia unica, semplicissima e complessa al tempo stesso, della cucina italiana.

Le opere di grandi architetti italiani dallo stile unico, sembra poterle toccare per immergersi in un mondo caratterizzato da colori accesi e diverse consistenze, da lambire con un tocco delicato per scoprirla la densità.

Una moltitudine di fiori che si susseguono in ogni forma, stile e dimensione, tenui foglie cristallizzate, soavi cascate di fiori di campo e pompose rose, si liberano rilasciando le loro fragranze dai sentori delicati e gentili.

Lasciate che i vostri sensi vengano sedotti dalla nuova collezione e preparatevi per un viaggio attraverso lo stile di Klamoo.

THE IV CHAPTER

The fourth chapter of Klamoo's Kreative collection was inspired by Italian art in all its forms. The story of the "Bel Paese" from an architectural, artistic, naturalistic, cultural, and culinary point of view.

A sensory journey, a flattery for each of the five senses. Immortal works that recall the glory of the Renaissance and the wonder of glorious cities recognized worldwide for their priceless artistic wealth, caress the eyes and are captured to become ineffable furnishings.

Charming landscapes change into evocative paintings that have the virtue of immersing those who admire them in an atmosphere of tranquillity. The rustling of the leaves, the chirping of agile birds moving from branch to branch, the flowing of a stream, lull and cuddle with harmonious kindness.

Illustrations inspired by the second futurism, characterized by a strong link with the post-cubist culture, clean lines and bright colours speak about the culinary art, a mix of tastes and flavours that tell all the vivacity of the unique history, simple but rich in traditions, of Italian cuisine.

The works of great Italian architects with a unique style. It seems you can touch them to immerse yourself in a world characterized by bright colours and different textures, to touch with a delicate touch to discover the density.

A multitude of flowers that follow each other in every style and size, soft crystallized leaves, gentle waterfalls of wild flowers and pompous roses are released releasing their fragrances from the delicate and gentle scents.

Let your senses be seduced by the new collection and get ready for a journey through the Klamoo style.

EL IV CAPÍTULO

El cuarto capítulo de la colección Kreative de Klamoo se inspiró en el arte italiano en todas sus formas. La historia del Bel Paese desde un punto de vista arquitectónico, artístico, naturalista, cultural y gastronómico.

Un viaje sensorial, un halago para cada uno de los cinco sentidos.

Obras inmortales que recuerdan las glorias del Renacimiento y la maravilla de las gloriosas ciudades reconocidas en todo el mundo por su incalculable riqueza artística, acarician la mirada y se dejan capturar para convertirse en inefables complementos de decoración.

Paisajes sonrientes se transforman en pinturas sugerentes que tienen la virtud de sumergir a quien las admira en un ambiente de calma. El susurro de las hojas, el canto de los ágiles pájaros que pasan de una rama a otra, el flujo de un arroyo, acuna y abraza con armoniosa amabilidad.

Ilustraciones inspiradas en el segundo futurismo, caracterizadas por un fuerte vínculo con la cultura poscubista, líneas limpias y colores vivos nos hablan del arte culinario, una mezcla de gustos y sabores que cuentan toda la vivacidad de la historia única, muy sencilla pero rica en tradiciones, de la cocina italiana.

Las obras de grandes arquitectos italianos con un estilo único. Parece poder tocarlos para sumergirse en un mundo caracterizado por colores vivos y diferentes texturas, para ser toqueado suavemente para poder descubrir su densidad.

Una multitud de flores que se suceden en todas las formas, estilos y dimensiones, suaves hojas cristalizadas, suaves cascadas de flores de campo y rosas pomposas liberan sus propias fragancias con aromas delicados y suaves.

Deja que tus sentidos se dejen seducir por la nueva colección y prepárate para un viaje a través del estilo de Klamoo.

LE CHAPITRE IV

Le quatrième chapitre de la collection Kreative de Klamoo s'inspire de l'art italien avec toutes ses formes. L'histoire du Bel Paese d'un point de vue architectural, artistique, naturaliste, culturel et culinaire.

Un voyage sensoriel, une flatterie pour chacun des cinq sens.

Des œuvres immortelles qui rappellent les gloires de la Renaissance et l'émerveillement de villes glorieuses reconnues dans le monde entier pour leur richesse artistique inestimable, caressent le regard et se laissent capturer pour devenir des accessoires d'ameublement ineffables.

Des paysages souriants se transforment en tableaux suggestifs qui ont la vertu de plonger ceux qui les admirent dans une atmosphère de calme. Le bruissement des feuilles, le gazouillis des oiseaux qui passent prestement d'une branche à l'autre, le ruissellement d'un ruisseau, vous bercent et vous gâtent avec une harmonieuse douceur.

Des illustrations inspirées du second futurisme, caractérisées par un lien fort avec la culture post-cubiste, des lignes épurées et des couleurs vives nous parlent de l'art culinaire, un mélange de goûts et de saveurs qui racontent toute la vivacité de l'histoire unique, très simple mais riche en traditions de la cuisine italienne.

Les œuvres de grands architectes italiens avec un style unique. Il semble que vous puissiez les toucher pour vous immerger dans un monde caractérisé par des couleurs vives et des textures différentes, à effleurer avec une touche délicate pour découvrir leur densité.

Une multitude de fleurs qui se succèdent dans toutes les formes, tous les styles et toutes les dimensions, de douces feuilles cristallisées, de douces cascades de fleurs sauvages et de roses pompeuses se libèrent en libérant leurs parfums avec senteurs délicates et douces.

Laissez vos sens se laisser séduire par la nouvelle collection et préparez-vous pour un voyage à travers le style Klamoo.

ISTANTANEE

Scorci del bel paese sembrano versi di poesia che narrano se stessi, tutto ciò che si incastra tra il respiro e la pelle.

Glimpses of the beautiful country seem like verses of poetry that narrate themselves, everything that gets stuck between the breath and the skin.
